## **WANT TO KNOW YOUR HOROSCOPE?**

According to astrological predictions for June 2025, seniors can expect a period of deepened connections, increased focus on family and home life, and potential opportunities for personal growth, with a particular emphasis on nurturing existing relationships and reflecting on the past while looking towards a positive future; this is largely due to the planet Jupiter entering the sign of Cancer around June 9th, which signifies a time for emotional fulfillment and strengthening bonds with loved ones.
